

CARE TEAM

- * Help connecting with campus resources
- * Coach students on how to talk with their professors about many different issues
- * Assist students through the medical withdrawal process

The CARE Team helps connect students, that are struggling, to campus support services. To do this one-on-one support is offered using the information gathered from personal contact with students, faculty, staff and sometimes family members.

The CARE Team does not verify absences nor does it have the ability to provide an excuse for any missed classes.

MENTAL HEALTH HELP

- * Counseling Services: 765-658-4269

- * Crisis Support: : 765-658-4268
